MAGNI SUTERA

VACANCIES

Job Title: **Computer Science Engineer**

Job Responsibility:

- Perform periodic hardware analysis of computer hardware and software using available technology and testing tools.
- Respond to all computer-related issues and provide technical support to all staff members.
- Oversee the company's cloud storage accounts to guarantee they're protected and secure.
- Conduct validation testing for new and renovated motherboards.
- Ensure existing computer equipment are up to date.
- Stay up to date with the latest technologies and incorporate new technology into existing units.
- Draft new computer equipment blueprints and present them to management.
- Plan and manage the production of computer hardware equipment.
- Develop and install software systems

Job Requirement:

- Bachelor's degree in computer engineering, computer science or a relevant field.
- A minimum of 3 years' experience in a similar role.
- Strong knowledge of design analytics, algorithms, and measuring tools.
- Excellent verbal and written communication skills.
- A creative thinker with good analytical abilities.
- Proficient in problem-solving.

Interested candidates are invited to write in with full personal information, copies of relevant certificates, employment history, current and expected salaries and contact details. Only shortlisted candidates will be notified for interview.
