VACANCIES

Job Title: Drilling Superintendent

Job Responsibility:

- Oversee and ensure the drilling operations are in line with the programs provided by company to ensure drilling is carried out in a safe and efficient manner
- Implement workforce plans to meet drilling, HSSE and costs objectives
- Oversee the offshore drilling operations in line with the programs provided by company to ensure drilling is carried out in a safe and efficient manner
- Continuously monitor the actual operations against the operational plan and cost reports to ensure optimal performance and maximize the cost-effectiveness of the operations as well as minimize any non-productive time.
- Provide guidance to resolve difficult and unusual problems to eliminate any delay in the operations.

Requirements:

- Degree in Mechanical Engineering or Petroleum Engineering or other relevant engineering degree with a drilling background.
- Min of 16 years of offshore drilling experience as Senior Drilling Supervisor.

Interested candidates are invited to write in with full personal information, copies of relevant certificates, employment history, current and expected salaries and contact details. Only shortlisted candidates will be notified for interview.
